

Last Chance Audubon Society Scholarships for Graduating High-School Seniors 2021-2022 Academic Year

The Last Chance Audubon Society (LCAS) is pleased to announce that up to two awards of \$1000 each will be made to graduating seniors from high schools in the Helena School District. The purpose of the scholarships is to provide financial support to help selected students with their freshman-year college expenses.

Qualifications: Students may apply who anticipate being accepted to a college or university of their choice and who have agreed to attend that institution. Students who apply must have an interest in college/university studies related to habitat protection, conservation, and/or restoration of value to avian and other wildlife species.

Application and Schedule:

- Applicants should print the pdf file from the LCAS website (<https://www.lastchanceaudubon.org/learning/scholarship/>). The application must be provided as a word (doc) document and submitted as instructed below. Please insure that all sections are completed. Incomplete applications will not be considered.
- Application (below) should be completed and returned by email to scholarship@lastchanceaudubon.org no later than April 15, 2022. One letter of recommendation from a high school faculty member should be included with the application or may be returned separately by email.
- An LCAS selection committee will review the applications and make recommendations to the LCAS Board for a decision. Students will be notified of the Board's decision in early May 2022. (Those not selected also will be notified.)
- LCAS will issue a press release. Students should notify their respective high school about the LCAS decision so it can be included with commencement information.
- Scholarship awards will be made in early-mid August upon proof of college/university registration.
- Each student recipient is asked to submit an informal one-or two-page report of their freshman year studies and activities and future plans. Recipients will also be invited to attend the next year's LCAS May membership meeting to take part in that year's award presentations.

Essay: Please attach a one to two-page description of the area(s) of study in which you are interested, related to conservation of avian and wildlife species and their habitats, such as the sciences, environmental studies, natural resources, public policy, geography, journalism/communications or another area of study.

More specifically, describe how you see your proposed area of study addresses the LCAS and/or national Audubon missions.

LCAS mission statement: "Last Chance Audubon promotes understanding, respect and enjoyment of birds and the natural world through education, habitat protection and environmental advocacy."

In your submission, please address the following questions:

- Why do you feel this area of study is important?
- Why are you interested in these areas of study?
- What career or other goals are you interested in pursuing and hope to accomplish?
- Anything else you want to add?

Name, position and contact information (i.e., email and phone contact) for the faculty member providing a recommendation
